We carry the largest stock of Carpets, Curtains, Oilcloths, Floor Rugs, Mattings, Window Shades Curtain Poles, and House Furnishing Goods of all kinds between Toronto and Montreal. We devote one whole flat and part of another of our large store to this department, and keep two experienced men who devote their whole attention to this department. This gives us a distinct advantage over smaller dealers who make Carpets only a side line.

### The Style of our Carpets

It is now 38 years since we first began to handle Carpets, and our long experience and familiarity with the different grades and qualities of Carpets enables us to select only the best makes and choicest colorings and While ladies like to make choice from a large assortment, still the styles and colorings must be up to date in every par-ticular. We pay special attention to having the colorings of our Curtains, Rugs and Gen-Furnishings blend harmoniously with our Carpets.

### The Price of our Carpets

The large quantity of Carpets that we annually import enables us to get to the very bottom as to price. We avoid paying any middlemen profits by sending a buyer twice each year direct to the manufacturers, and by paying Cash get the very lowest prices from the makers themselves.

We are prepared to substantiate our claims to superior qualities and choice styles by submitting our Carpets and House Furnishings in competition with any house in

## We deny it!

While it isn't true that we are selling groceries for less than cost, we are coming very close to the other side of the cost mark in our price. We want to get rich, of course, but we're satisfied to do it slowly. Small profits satisfy us.

## We make a specialty of Teas, Coffees, Sugars, both staple and fancy Groceries

We are still selling the renowned Tower brand of black tea at 50c.; also 4 lbs. Valencia raisins for 25c.; also a 35c. Japan at 25c. We sell nothing but Redpath's Standard Sugars. -

## FINALLY

We would say, "confidently you know," spend all the money you can "hero" if you wan; a merry Xuas. Remember always, that in china ware and dishes of any description, our goods must be and are of a different and much superior class to those picked up by all zorts of stores as side lines. Ware made for the legitimate crockery trade comes from the hands of attists in decoreting ard firing, as the most inexperienced will notice, and is intended for service as well as orrawment. As to "silver" we would relyiss you that we are the only firm here handling the celebrated Meniden Britannia Co's, hellow ware, and you may as well get the best when it costs no more. You've five days only this week and Saturdsy night. Monday next, 24th, will be be Citizens' day; Saturday 22nd, will be farmers' Day.

## →GOUGH'S ← CHRISTMAS CARNIVAL OF LOW PRICES!

"Good Measure, Pressed Down, Shaken Together and Running Over"

Is the scriptural way of putting it. At this "Good will to Men" geason, we are inspired with increased desires to open our hearts, let go the profits, and lessen the price of Wearing Appared to all mankind alice, rich or pro—to break down the barriers to bodily comfort in dress—and to throng our stores with a Carnival of Happy People, Saving Fifty Cents on Every Dollar they have to spend.

Let not the fact that we are able to keep a steady and constantly growing stream of New Gords before our customers, at prices so far below their real value, disturb the peace of mind of our competitors. We will be glad to have them imitate our example for at least once in the year. Let them "go and do likewise"—adding fuel to the fire we have stated, esserted that such philid help to gladeden the hearts of tired mothers, blodding fathers and auxious children cager for an opportunity that will enable them to relieve their wants and cheer them while the glad Christmas bells are ringing. We shall never stop keeping right on increasing and bettering our trade. Just now every department is in touch with Xmas wants.

"Good Measure, Pressed Down, Shaken Together and Running Over"

Is the scriptural way of putting it. At this "Good-will to Men" season, we are inspired with increased desires to open our hearts, let go the profits, and lessen the price of Wearing Apparel to all mankind after, rich or prossible that we are able to keep a steady and constantly growing stream of New Goods before our customers, at prices so far below their real value, disturb the peace of mind of our competitors. We will be falled to have them imitate our example for at least once in the year Let then "go and do likewise"—adding fuel to the fire we have stated; essered that such philanthrophy will help to gladden the hearts of tired mothers, plodding fathers and anxious children eager for an opportunity that will enable them to relieve their wants and cheer them while the glad Christmas bells are rieging. We shall never stop keeping right on increasing and bett ring our trade. Just now every department is in touch with Xmas wants.

Our CLOTHING TROLLEY CONTINUES TO RIN ON THE BAIGAIN WIRE. A smaller sum of money than over before is enough to make every buyer more comfortable, and not a whit lost in quality or style. Whatever the price, the Clothing must be stylish, or we have no us: for it,
